

Such A Surge, Instant Replay

(it's robotized instant replay)

it's up to you,
to change my messed up point of view
i've got no clue
after all we've been through
??? without asking
i'll behave as predicted
small pieces in loops
wasted, but still addicted
all systems working
all bodys jerking
ready to follow
everywhere i go
i don't know, what to do
and i don't have anything nice to say
i wish, i wish myself away
we're robotized instant replay

over and over again
over and over again
over and over again
over and over again

(2x)
crashtest dummie
how much can you take
crashtest dummie
put a smile on your face

it's nothing new
still the same old
monkey, see monkey do
i'm so close to
forget this mask and breathe through
erase and rewind me, and please don't remind me
i need to forget
overwrite and store, trust instead
synchronized walking
smiling, small talking
i'm calm and quiet,
repeating everything is alright
now i know what to do
and now i have something nice to say
such a nice place to stay
robotized instant replay

over and over again
over and over again
over and over again
over and over again

(2x)
crashtest dummie
how much can you take
crashtest dummie
put a smile on your face

(2x)
hold your breath and smile
over and over again

(2x)
hold your breath and smile

hold it!
over and over again

(2x)
crashtest dummie
how much can you take
crashtest dummie
put a smile on your face
