

Suck For Sympathy, Tired Of You

If you want me to release your soul just tell me why you went away
If I let me down to talk to you again I know, what to say

I'm quite sure that you are old enough
To handle situations on your own

Did you... know that
I won't wait for you again
I can't... go on
I'm so tired of you

Don't you know I'm not the same because I'd been an idiot
You can't insist on circumstances of the times we never had

I can't tell you what you have to do
Cause I have to find myself first...

Did you... know that
I won't wait for you again
I can't... go on
I'm so tired of you

I'm quite sure that you are old enough
To handle situations on your own

Did you... know that
I won't wait for you again
I can't... go on
I'm so tired of you
You.....
You.....
