

Suck For Sympathy, Victim Of Nature

I could kill when I see you go by
You didn't know so I will tell you why

You're just an imitation
Of great god's creation
You're just a victim of nature...

I hope you die...painfully
A million others would agree
Pass away...go to hell
Hate you more than i can tell

I could shoot your or just poison your food
I could hire a killer from the neighborhood

You're just an imitation
Of great god's creation
You're just a victim of nature...

I hope you die...painfully
A million others would agree
Pass away...go to hell
Hate you more than i can tell

I hope you die...painfully
A million others would agree
Pass away...go to hell
Hate you more than i can tell
