

# Suede, Colours

So we'll live for the future  
Yeah we'll live for our dreams  
In a world made of different colours  
There for you and me

Like the sky in the morning  
Like the sycamore trees  
Everything made of different colours  
Same as you and me

And when you smile  
The child in me believes  
And for awhile well I forget  
Yeah I forget to breathe

And like the sun in the morning  
Like the icy blue sea  
Everything made of different colours  
Same as you and me

Just like the trash on the ocean  
Like the wintery trees  
Different pieces of different colours  
Same as you and me

And when you smile  
The child in me believes  
And for awhile well I forget  
Yeah I forget to see

They're just colours  
Colours like you and me  
Colours like you and me

Like the sky in the morning  
Like the sycamore trees  
Everything made of different colours  
Same as you and me
