

# Suede, Obsessions

It's the way you pick your clothes off the floor  
It's the way you scratch your skin when you yawn  
It's the t-shirts that you choose like you're in the air force  
Yeah the language that you use reacts like chemicals

Obsessions in my head don't connect with my intellect  
It's called obsession can you handle it?  
It's connected to the hip sound and it moves with the underground  
It's called obsession when you're around

It's the way you close the doors of my car  
It's the stupid things you bought with my credit card  
It's the way you don't read Camus or Bret Easton Ellis  
Yeah the TCP you use it stings when we kiss

Obsessions in my head don't connect with my intellect  
It's called obsession can you handle it?  
It's connected to the hip sound and it moves with the underground  
It's called obsession when you're around

Obsessions it's like sex it's simple and complex  
It's called obsession can you handle it?  
It's connected to the hip sound and it moves with the underground  
It's called obsession when you're around
