

# Sugababes, The Moment I Feared

Tricky:

Well I'm sittin on my lunch break, grinnin my teeth  
It's the last day of the week, boy what a relief  
My muscles kind of ache, they felt rigid and stiff  
So I turned around, and I smoked this big fat spliff  
Now I'm happy as can be I'm in this pothead spell  
I put some eyedrops in my eyes so that no one can tell  
Now it's 5:45 almost time for the bell  
I'm back on the job, I don't bother no one  
I keep strictly to my ways till my job is done  
Now it's 5:45 it's time to have fun  
I'm hangin out with a rapper, a kid named Don  
We got more drunk than a skunk and happy as can be  
We went, to the Latin Quarters and we got in free  
Scoopin all the girls with my fly jewelry  
'Cause I'm a fly brown brother and you can't school me  
Boogie Down was performin hey they ain't no joke  
And a bunch of Brooklyn kids was lookin all up my throat  
Was it my big chains with the big words on 'em?  
Then they rolled on me and told me to run em

This was the moment I feared...

"Yo take off your chains.."

This was the moment I feared...

"You need to take those chains off.."

I said, "They're really not real, they're just a front for the girls"

Then a whole bunch of fists just, caved in my world

I was in pain, so ashamed, I wish I never came

Had to pick up my face and go home on the train

Then I went to the park and bought me a thought

Then I went to the park, and I sat and I thought

I seen Danny Boy blue with his girl named Sarah

In one of their cars, I think it was a Valera

She called out to me, but, I really didn't hear her

So I went a little closer so I could a little clearer

She said, "You know where we're chillin'?

I said, "I know where that is, just next to my building"

I gave em the information and they I went on my way

Then I went home, and slept til two the next day

There was a knock on my door, I opened it, no quit!

It was Sarah standing there with a bag named Kit

She starts to use me and abuse me and at first I wasn't with it

Then we did it and we did it and we did it

She said it was great, she said she's glad we had done it

The elevator come and Danny Boy was on it

This was the moment I feared...

This was the moment I feared...

Well he was huffin and puffin and he swung at me -- word

So I pulled out my gat and I silenced the nerd

Then he was dead two in the head I took the cash and the Visa's

She said, "Everything's all right, just make sure nobody sees us"

Now I was rich as I was rich I could have whatever  
would please me

Now I could wear real gold in front of folks who don't  
tease me

Yah, I'll be a new neighborhood dad

Cats'll roll up on me like, "Trix my man!!"

Ya see a policeman rolled up on me and told me, "Make my day"

I said, "Relax brother," but he had proof that I had done it

He found the gun with my fingerprints on it  
But now I'm in prison doin' life and I'm scared  
Some kid snuffed me cold and greased me where no one dared

This was the moment I feared...  
"Now bend over!"  
This was the moment I feared...  
"Take your trowsers down, and bend over!"

Now I'm doin' life and I'm scared  
A kid knocked me cold and greased me where no one dared  
The moment I feared..  
This was the moment I feared..
