

Sugar Jones, Get Yourself Together

You need to get yourself together
'Cause right now boy you're playing with our love
You be busy trippin' on me
You know you got me feeling like I'm needin' to leave

You need to get yourself together
'Cause right now boy you're playing with our love
You be busy trippin' on me
You know you got me feeling like I'm needin' to leave

No matter who I be with or what I do
I look around and I always be seein' you
In the cut with your boys, spyin' on me
Tryin' to check up on a sister, back up off me
You need to stop before you end up losing me
You say it's love, but it seems like abuse to me
How can we ever grow when trust is something you never show?

You need to get yourself together
'Cause right now boy you're playing with our love
You be busy trippin' on me
You know you got me feeling like I'm needin' to leave

You need to get yourself together
'Cause right now boy you're playing with our love
You be busy trippin' on me
You know you got me feeling like I'm needin' to leave

Everytime you page if I'm not at home
I'm spending dollars callin' back on my cell phone
And even though a lot of guys be jackin'
I step to you tryin' to see what's crackin'
Let's go out tonight, do what you like
Don't wanna fuss no more, don't wanna fight
You question if I'm faithful pushin' me somewhere I don't wanna go

You need to get yourself together
'Cause right now boy you're playing with our love
You be busy trippin' on me
You know you got me feeling like I'm needin' to leave

You need to get yourself together
'Cause right now boy you're playing with our love
You be busy trippin' on me
You know you got me feeling like I'm needin' to leave

What can I do if you don't trust me
I can't continue to let you hurt me
No

You know that you really need to get yourself together
Could it be you and me ain't really ready for the stormy weather
You've been so busy trippin' on me that you can't even see

You need to get yourself together
'Cause right now boy you're playing with our love
You be busy trippin' on me
You know you got me feeling like I'm needin' to leave

You need to get yourself together
'Cause right now boy you're playing with our love
You be busy trippin' on me
You know you got me feeling like I'm needin' to leave

You need to get yourself together
'Cause right now boy you're playing with our love
You be busy trippin' on me
You know you got me feeling like I'm needin' to leave

You need to get yourself together
'Cause right now boy you're playing with our love
You be busy trippin' on me
You know you got me feeling like I'm needin' to leave

You need to get yourself together
