

Sugar Ray, Chasin

I woke up late again this morning
Just another morning lying there for me.
And in your mind you're always running,
Keep on running, run away from me.

CHORUS (2x):

I spent all my time
Chasing you around,
It's that way now I found out for sure.

Said you'd stay and make it better,
We'd stay together is what you said to me.
But you left without a warning,
And now another morning is lying there for me.

CHORUS (2x)

And everytime that i try to get to you,
There's nothing I can say.
We tried but it seems there's nothing left to do,
but I'll wait anyway.

CHORUS (2x)

I know
I know
I know
(Whatever it takes now)
(We'll make no mistakes now)
(Whatever it takes now)

I know
I know
I know
(Whatever it takes)
(We'll make no mistakes now)
(Whatever it takes now)

CHORUS (2x)

I spent all my time,
Chasing you around
(I know)
(I know)
(I know)
I spent all my time,
Chasing your around
(I know)
(I know)
(I know)
