

# Sugar Ray, Under The Sun

Now this is somethin' from back in the day  
I'll always remember Run DMC  
And all the good times  
That we had on the beach  
Stealing sips from a paper cup  
And making out in the sand  
Maybe I'm dreaming  
Can you tell me

[Chorus]  
Do you remember  
The summers that lasted so long  
June til September  
Was our time to sing all the songs  
Do you remember  
All of us together  
As we grew up under the sun

I'll always remember everything we do  
Rockin' the eighties blastin' KROQ  
I remember Culture Club  
The Clash, and Men Without Hats  
Seems kind of funny right now  
But it's taking me back  
We'd always sing along  
And laugh out loud at ourselves  
Don't want to stop dreaming  
Can you tell me

[Chorus]  
Do you remember  
The summers that lasted so long  
June til September  
Was our time to sing all the songs  
Do you remember  
All of us together  
As we grew up under the sun

I want to rewind every time  
'Cause the words have so much meaning  
They were there when nobody cared  
Always knew what I was feeling  
Stay tonight don't leave me reminiscing  
All I do is wind up missing you  
And you missing  
Are you missing me  
na na na

[Chorus]  
Do you remember  
The summers that lasted so long  
June til September  
Was our time to sing all the songs  
Do you remember  
All of us together  
As we grew up under the sun
