

# Sugarcult, Back To California

How long I'll wait  
Just to say goodbye  
Ten different ways to enjoy this night  
Can't do this anymore  
Won't feel you anymore

How long I'll wait  
Just to say goodbye  
You could never let me in  
Holding on until the end

The time I waste just to say goodbye  
Out of your way  
I could do this right  
Can't see you anymore  
Won't feel you anymore

How long I'll stay  
Just to say goodbye, say goodbye

Leave it all the fights and all  
Summer's getting colder  
Drive all night to hold you tight  
Back to California  
Days went by  
We waited and I guess we're getting older  
We couldn't win in the end

You're gone  
I'm miles away  
Turning out your lights  
Ten different ways I could end this night  
Can't do this anymore  
Won't feel you anymore

How long I'll wait  
Just to say goodbye, say goodbye

Leave it all the fights and all  
Summer's getting colder  
Drive all night to hold you tight  
Back to California  
Days went by  
We waited and I guess we're getting older  
We couldn't win in the end

You're gone
