

Sugarplum Fairy, Another Apple In My Mouth

Lone before I was once another
And I gess I was better now after
Fill my heart with your love sweet love
And replace another apple in my mouth
It's such a long distance
And I don't wanna lose Control
Another aching blister on my soul
Another apple in my mouth I don't know what to do
(I don't know what to do)
Another bullet in my chest I wanna die for you
(I wanna die for you)
Fill me up fill me up until you go
Fill me up fill me up until you go
Another apple in my mouth
An opened door and I know for sure
That the people me People have spoken
Are you getting old it's a fact hold on
Because its love and i gess it's the answer
It's such a long distance
And I don't wanna lose Control
Another aching blister on my soul
Another apple in my mouth I don't know what to do
(I don't know what to do)
Another bullet in my chest I wanna die for you
(I wanna die for you)
Fill me up fill me up until you go
Fill me up fill me up until you go
Another apple in my mouth
