

# Sugarplum Fairy, Back Where We Belong

There are times when everything and everyone  
They all forget your name  
There are words and promises  
From people who they don't make any sense

Don't you know that I love?  
When I know that it's real

So would you  
Please bring me back where we belong  
Where I know it once begun  
Please see don't leave us here to die  
'Cause I still will wonder why

What you want I'll never know  
But I know for sure that I don't wanna stay here  
Please be real brother what's the deal  
What you feel inside it's a sign for us going blind

Can't you see that it's pain?  
When it struck you again

So would you  
Please bring me back where we belong  
Where I know it once begun  
Please see don't leave us here to die  
'Cause I still wonder why

Back where we belong

Please bring me back where we belong  
Where I know it once begun  
Please see don't leave us here to die  
'Cause I still wonder why

Back where we belong  
Back where we belong
