

Sugarplum Fairy, Sail Beyond Doubt

bring lover down 24
Break up the pieces find the floor
Breathe in the toxic air of love and give me
Back what i have owned
Getting you all believers showing me gates through
Hell and fire no
What's the use in giving up
What's the point in going down
Give it up and search for more
Take me for a ride and bring me back safe baby
Give it up and serch for more
Take me for a ride - sail beyond doubt
Ride my roller soul alone and
Wear it out your poems broke
Go through the golden years again and you will
Be at ease my friend
Getting you all believers showing me gates through
Hell and fire no
What's the use in giving up
What's the point in going down
Give it up and search for more
Take me for a ride and bring me back to safe baby
Give it up and search for more
Take me for a ride - sail beyond doubt
