

Suicidal Romance, Will It Be (For Us)

In the dark
We are alone
Your naked body
Makes me feel so warm

On my knees
Waiting for your treat
You start to tease me
With Your naked feet

Will it be for us
A perfect game in our life
Are the stars still bright
After looking in Your eyes
Will You be with me
When I'll kiss Your lips
Or will You feel the pain
After touching me

Pain - Tears
Pain - Love

Candles light
Curves in the dark
Embracing all
What night has to hide
In Your bed
I feel Your lust
You touch my skin
And we fall apart

Pain and Tears
Pain and Love
