## Suicide Commando, Cry For Mother

Mother, What have I done? Just killed the one I loved Mother, These hands, this gun After all the love has gone

No restraint, Just pain, remove this cancer No remorse, Just die, revolt in anger

## Mother

Mother
This must be hell
The blood recalls the smell
Mother
This can't be true
After all I did for you

No restraint, Just pain, remove this cancer No remorse, Just die, revolt in anger

## Mother

You didn't want me You didn't need me You didn't love me You did abuse me

Mother Cry for mother
