

Suicide Commando, Neuro Suspension

Time

To leave this life behind

To leave this state of mind

To say farewell

Leave this hell

Fear

Now that the end is near

There's no way out of here

Now that you're dead

Came way too near

Neuro suspension

Eternal life expansion

Time

To breathe your final breath

To reach this point of death

There's no return

Don't let me burn

Fear

Now that the end is near

There's no way out of here

Now that you're dead

Came way too near

Neuro suspension

Eternal life expansion
