

Suicide Machines, Burning In The Aftermath

Since 1989 it seems that everyone's
forgotten time when
intercontinental ballistics ruled the
world and the cold war raged

(Chorus)

Nuclear family, nuclear war (4X)

Alarming to me it seems that ignorance
is still a disease and how so many
haven't a clue or care about the threat
that still hangs over our heads

Chorus (8X)

Burning in the aftermath (4X)
