

# Suicide Machines, Did You Ever Get A Feeling O

(Chorus)

Did you ever get a feeling of dread?  
That everything they're saying is not all they've said

Why do they wanna take us to war, yeah  
why do they wanna put us in a Government's war?  
There's all this fighting and we don't know what for  
So the rich get richer, and the poor stay poor

Chorus

Poisoning the Earth and the ground  
so death comes swift it never makes a sound  
The air is filled with carbon monoxide, choke  
on the diesel black clouds and the billowing smoke  
Why do people fight over religion and politics?  
I spent most of my life trying to figure it out yeah yeah yeah  
It may be a question that never gets answered  
It may result in some kind of final disaster  
And oh what a shame it would be  
but it would set the world free

Chorus (4X)

All that they've said, oh yeah
