## Suicide Machines, Did You Ever Get A Feeling O

(Chorus)
Did you ever get a feeling of dread?
That everything they're saying is not all they've said

Why do they wanna take us to war, yeah why do they wanna put us in a Government's war? There's all this fighting and we don't know what for So the rich get richer, and the poor stay poor

## Chorus

Poisoning the Earth and the ground so death comes swift it never makes a sound The air is filled with carbon monoxide, choke on the diesel black clouds and the billowing smoke Why do people fight over religion and polotics? I spent most of my life trying to figure it out yeah yeah It may be a question that never gets answered It may result in some kind of final disaster And oh what a shame it would be but it would set the world free

Chorus (4X) All that they've said, oh yeah
