

# Sum 41, There's No Solution(live)

Maybe nothing else will ever be so clear  
Or maybe that's only my fear  
If just for one day I wish I could disappear  
Just take me far from here  
Maybe I'd find out nothing new  
Maybe I'd end up just like you

There's no solution (no solution)  
Give me truth to my conviction  
Is my own confusion (my confusion)  
Reality or fiction  
Am I out of my mind

The constant pressure that keeps hanging over me  
It makes me feel so empty  
It's more than anything that I could ever be  
What else could you take from me  
It's getting harder to relate  
Don't want to make the same mistakes

There's no solution (no solution)  
Give me truth to my conviction  
Is my own confusion  
Reality or fiction (my confusion)  
Am I out of my mind

It took me so long to find out  
It's right there in front of me  
Too close to see  
What I thought was true  
I see right through  
What's killing you

There's no solution (I can see)  
Give me truth to my conviction  
Is my own confusion (that I feel)  
Reality or fiction  
Am I out of my mind

So maybe nothing else will ever be so clear  
Or maybe that's only my fear (am I out of my mind)  
If just for one day I wish I could disappear  
Just take me far from here (am I out of my mind)
