

Sunk Loto, Erased

Drowning, feels like I'm drowning in the piss of the world

Suffocated, we're suffocating in the mess we've made

Drowning now!!

Fly up so high then you fall

Crashing, burning down thoughtlessly & selfishly

Experimenting dangerously, the human race erased itself into a void

Thoughtlessly & selfishly the human race erased itself into a void

Choking, feels like I'm choking on the shit of the world

Suffocated, we're suffocating in the mess we've made

Choking now!!

Fly up so high then you fall

Crashing, burning, we will drown in this mess we've made now

We will drown in this mess we've made...

I can swim now
