

Sunk Loto, Make You Feel

We've ruined a planet that was once divine
from the dawn of evolution 'til the end of time
Step back and put your finger on the crime
For the murder of a race. We're blind!

And that's the way I feel, the way I feel, yeah

Yeah what we done we got to be ashamed of
Society's now bent on money and lies
You better watch what ya wish for man
Cos the money and the power's gonna set you blind

The money and the power's gonna set you blind
