

# Sunrise Avenue, Birds and bees

Im looking at you through my window  
I have no one, I want you so  
My heaven is upside down right now  
I want you, I want you, I do  
I am looking at you as you walk by  
My heart beats fast I sure know why  
Im looking at you and your fine tail  
You really drive me insane  
Look at me  
Theres a way I believe  
You could want me and join me  
Like the birds and the bees  
Maybe Baby  
Its enough with the tease  
Wed enjoy it the right way  
Just like those birds and bees  
When Im thinking of you my knees go weak  
Im all yours, my dreams run deep  
Im looking at you with a drooling mouth  
You make me scream and shout  
Leather and oil and all nightlong  
Marvin Gayes sweet love song  
Venus is rising, the hell breaks loose  
Its natural baby, theres no excuse
