

Sunrise Avenue, Bye Bye (One Night Kind)

She was sugar and salt we all wanted
And one of those queens you need to get
And I got her to go out with me
I took her dancing
In the smoke I believed shes all mine
I was sure (cause) my moves went so fine
Then I asked her to go home with me
Then she looked at me
And she said
Bye bye bye I am not the one night kind
Guess you better find someone
Someone whos like you, just like you
Bye bye bad boy you cannot be fine
You should better find someone
Someone who is sick enough for you
Still I thought there must be some way
To get the kiss and the love just right away
Then I said I would take her straight home
Its not safe out there
Last minute I had to make my move
I said: Honey could I sleep next to you
And she said Dissapear F***ing idiot
Thats all folks. Period.
And she said
Bye bye bye I am not the one night kind
Guess you better find someone, someone whos like you just like you
Bye bye bad boy you cannot be fine
You should better find someone
Someone who is sick enough for you
