

# Sunrise Avenue, Rising sun

Look at the rising sun  
Look at the game were in everyone  
Heaven is open for us tonight  
Look at the road behind  
Look at the miles weve walked, you and I  
Heaven is open for us again  
And it takes you and me inside its arms  
It takes you and me  
You by my side I can shine  
Im complete, Im divine  
You next to me I believe  
We can make it til the end  
Look at the road ahead  
Look at the nights and days we will share  
Under the sunny and the rainy skies  
Look into my eyes  
My heart is beating for you tonight  
Heaven is open for us tonight  
And it takes you and me inside its arms  
It takes you and me  
You by my side I can shine  
Im complete, Im divine  
You next to me I believe  
We can make it til the end  
We can make it all the way  
We can make it there  
We can make it til the end
