

Sunrise Avenue, The Whole Story

It's been hard to come to you lately
It's been easier to stay away
And I can't feel the heat
Not the one that we would need
There is something wrong
There's a wall in between

Chorus:

Wait, we can't fall now
We cannot leave all we have
I know it hurts and feels bad
We should stay and just fight back
We had it once all the way
The Whole Story
And it will hurt
But I'll be glad
To take the pain

I've been trying to touch you a sweet way
You tried kissing me like the early days
But it's all, very cold
And it tears me apart
Yeah, it's too, damn cold
But we just can't stop now

Chorus:

Wait, we can't fall now
We cannot leave all we have
I know it hurts and feels bad
We should stay and just fight back
We had it once all the way
The Whole Story
And it will hurt
But I'll be glad
To take the pain away

Pain is a side of love
We choose to live with,
You know
After the rainy day
The sun will shine, so...

Wait, we can't fall now
We cannot leave all we have
I know it hurts

Chorus:

Wait, we can't fall now
We cannot leave all we have
I know it hurts and feels bad
We should stay and just fight back
We had it once all the way
The Whole Story
And it will hurt
But I'll be glad
To take the pain away

And it will hurt
But I'll be glad
To take the pain
