

# SupaRed, Ride On

(Kiske)

Is it you, is it me?  
Well it seems I'm on fire  
Is it true? You believe,  
Just the beast gets us higher  
Follow me! On the edge I do the dare

Don't just weak it out or let it all fade away  
We cracked our faith enough and I feel some good today  
Get it ride on  
Get it ride on

Can you see all burned out  
It's field full of doubts  
I was free, I was fine  
So to speak was all mine  
Follow me! On the edge I do the dare

Don't just weak it out or let it all fade away  
We cracked our faith enough and I feel some good today  
Get it ride on  
Get it ride on  
Get it ride on  
Get it ride on

Wednesday the morning was fine  
No major heavies on my mind  
Tonight's rain did clear up the air  
If I freeze those moods, no losing, I swear

Don't just weak it out or let it all fade away  
We cracked our faith enough and I feel some good today  
Get it ride on  
We get it ride on
