

# Super Furry Animals, Down A Different River

Stuffed to the eyeballs with God knows what  
You're a conversational hazard  
Talking so quickly with so much ease  
I think you might have just snorted a blizzard  
Oh! Won't you tell it to someone else?

And we'll go down a different river  
And we'll see where it carries us  
Meet me at the muster station  
And if the ship's going down we'll swim for the ground  
Come on, come and join us here

Living a lie when I'm lying here  
I've got windswept eyes in the morning  
Doesn't improve as the day goes on  
You got a shagpile perm in the evening!  
If I could only make out the door

And we'll go down a different river  
And we'll see where it carries us  
Meet me at the muster station  
And if the ship's going down we'll swim for the ground  
Come on, come and join us here, here, here, here

If I could only make out the door!  
If I could only make out the door!  
If I could only make out the door!  
If I could only make out the door!  
(Slowly down a different river)  
If I could only make out the door!  
(Slowly down a different river)  
If I could only make out the door!  
(Slowly down a different river)  
If I could only make out the door!  
(Slowly down a different river)  
If I could only make out the door!  
(Slowly down a different river)  
(Slowly down)
