Super Furry Animals, Hit And Run

History just fades to insignificance
Listen to what I've got to say
Now what would you do?
If you were in my shoes?
Tell me

Previously to this I had no adventure
Life was just a Jurassic lark
Now what would you do?
If it happened to you?
Tell me

Hit and run
Blow my mind
Get it together
Leave your future behind

DNA:
Make my day
Found the key to a parallel universe
Found the key to a parallel universe
Don't tell me I've lost it:
Gone, gone, gone, gone, gone, gone, gone, gone

Found the eggs one night up by the quarry
Then I hid them underneath of my bed
If I only knew
For I had not a clue!
Now I've

Pterodactyls flying 'round my attic
They were incubated by the boiler
They're green with some blue
What on earth will I do?
Tell me

Hit and run
Blow my mind
Get it together
Leave your future behind

DNA:
Make my day
Found the key to a parallel universe
Found the key to a parallel universe
Don't tell me I've lost it:
Gone, gone, gone, gone, gone, gone, gone, gone

Will the dinosaurs come back and haunt us
I've a bet down fifty-to-one
And with the money maybe:
(One day I'll build my own parallel university with a park and good
facilities for all who enroll. Glyndwr would be so proud he never got
around to build one himself, although he planned to do so, told his
kids so)

Hit and run
Blow my mind
Get it together
Leave your future behind

DNA:
Make my day
Get it together

Leave your future behind

Hit and run
Steer blind
Get it together
Leave your future behind

DNA:
Make my day
Found the key to a parallel universe
Found the key to a parallel universe
Don't tell me I've lost it:
Gone, gone, gone, gone, gone, gone, gone, gone, gone
