Trust yourself. Look into the mirror
With the light glimmering around
You as you smile
There could be a sad memories that make you cry
Don't forget that you have a shoulder to lean on in this world
I have the whole world in my heart...
Lets keep running. For tomorrow, for our future
To become a shining light under the sun
I'm Wonder Boy! Yeah!
He always has a secret but it's
Easy to find the answers dance with me.
Just move your body to the music.
Don't be afraid, Girl
You don't have to fear
Anything except fear itself
There could be a sad memories that make you cry
I'm the one who'll start and end it.
Let there be light and become a shining star
The sun is welcoming me with rays of light...
I just need one umbrella and that'll be fine
Don't hide your tears from me. Yeah!
You can lean on my shoulder and cry out loud
Looking at the crimson red sun setting in the sky...
It's a spectacle that the heavens have given me
There's no end. A bright future lies ahead of you
The sun bathes me with it's warm light under the blue sky
I just need one umbrella and that'll be fine
To become a shining light under the sun
Lalala, lalalalala, lalalala,
Lalalala, lalalalala, lalalalala
The sun is welcoming me with rays of light...
I just need one umbrella
And that'll be fine
