Superjoint Ritual, Stupid, Stupid Man

Celebrate your yellow eyes, no intention, self prevention A horror tide, death for dead, borrowed time, a hallowed life You're fucking dead...you're fucking dead

Hungry for the mother love, you instigate a situation Half a head, half a body, baby rapist, dickless wonder You're bought and sold, you're bought and sold

Crap full, not sure, my fears The rain comes, like blood Invented, for your ameteur soul...

Kiss it goodbye
