

# Supertramp, An Awful Thing To Waste

So maybe you could do with a break  
You've had about all you can take  
You need to find somewhere you can run to

Somewhere a long way from here  
Somewhere where the skies are all clear  
Somewhere you can think all your thoughts through

It took a long time to make me understand  
You gotta meet life and shake it by the hand  
You gotta use your emotion

You talk a nice line to put your mind at ease  
You want to sit back and count your memories  
But that's no solution

I don't want to harp about it  
But what you gonna do about it?

Look at how you're set in your ways  
You used to be so willing to face  
Any kind of problem before you

Life is not as long as you think  
Open up your mind and you'll see  
Don't destroy yourself I implore you

You've got a fine wife, a perfect family  
You had it all planned to live so carefully  
But where does it get you

They say the mind is an awful thing to waste  
And that's a fact that you must come to face  
What more can I tell you?
