

# Supreme Beings Of Leisure, Swallow

Again they're teasing me  
I'm fighting what I cannot see  
I'm diggin' still can't find the key  
And logic just keeps failing me

Take another swallow  
Lean back and disappear  
Take another swallow  
And release the fear  
One to fill the hollow  
One to make it clear  
One to hid the mess and  
One to keep me

\*\*To keep me runnin'

Oh Doctor my dismay  
The dragon never goes away  
Will your medicine keep him at bay  
Will it get me through another day  
Buried deep and tied up neat  
Laid to rest put down to sleep  
All the mischief knocking at my door  
I have tried in vain just to ignore

Take another swallow  
Lean back and disappear  
Take another swallow  
And release the fear  
One to fill the hollow  
One to make it clear  
One to hid the mess and  
One to keep me

Ain't got time for looking back
