

# Susan Raye, One Night Stand

There's only one way for you to love me  
And that's for you to love me all the way  
With all of your heart soul and body every night and every day  
Well one night stand I ain't never been and I'm never gonna be  
So if your intentions aren't with honor then don't waste your time on me  
[ strings ]  
Well one night stand...  
There's only one way only one way
