

Susanna Hoffs, It Must Be Love

Starting over
Some things never wash away
And it's over and
Walking through the driving rain

Everything becomes so clear
The things I need the things I fear
The truth
Me and you

Doesn't matter if the world can come between us
I belong with you I never would believe it
Something so strong that even I can't
Mess it up
It must be love

I was lonely
You were cold and all shut down
So forgive me
For claiming what I found

All the beauty is so clear
The one I need and hold so dear
Is you
Baby, it's you

Doesn't matter if the world can come between us
I belong with you I never would believe it
Something so strong that even you can't
Mess it up
It must be love
It must be love

We've been fighting this for long enough
But this is bigger than the both of us

Doesn't matter if the world can come between us
I belong with you I never would believe it
Something so strong that even we can't
Mess it up
It must be love
It must be love
It must be love
It must be love
