

# Susanna Hoffs, Take What You Take

Color of your face  
A moment left behind  
Shining down on me  
After all this time  
It's another month of Sundays  
Summer turns to fall  
Life goes on around me  
And I'm making to call

## CHORUS:

Take what you take  
A heart can break  
make no mistake, my darling  
The earth will shake  
And it's everything  
You have left to me

It's like I'm out of season  
The way you'll never feel  
I've stopped looking for a reason  
What you got from me was real  
And I wonder what your dream is (Do you dream of me?)  
Wonder if you cry  
I wanna feel you breathing  
Know what you're feeling inside

## CHORUS

You parade around  
Like everything's fine  
Wasting my time  
God help me find  
Some peace of mind

Colour of your face  
Lives in my secret life  
And it keeps shining down on me  
A love who's on my side

## CHORUS
