Suzanne Vega, If I Were A Weapon

If I were a weapon you said I'd be a gun lethal at close range i guess with silencer and stun

but I feel more like a needle always pulling on the thread always making the same point again and wondering if you heard what I just said

if you were a weapon a hammer's what you'd be blunt and heavy at the end and coming down on me

but i've concealed a weapon in a pocket knife attack all folded up inside until you see the shine and then you'll want it back

oooh
if I were a weapon
you said i'd be a gun
lethal at close range I guess
w silencer and stun

well, if I am that weapon I am pointing now at you so just put down the hostage and we'll talk it down until we see this through
