

# Suziquatro, Love Is Ready

(Brown/Straley)

Our love is alive with the heat of delight  
How can I survive one more night  
Having such desire  
The moon is full tonight and my love is overflowing  
All my feelings are showing  
And my love's been growing

I'm ready for the time is right  
Love's ready for taking  
Love is ready  
I'm ready to fall my love is ripe  
Don't leave me here hanging  
Love is ready

Don't rush it along  
Take your time  
Take it easy  
'Cos you're love is strong  
And I know you can please me  
How long must I wait here for you  
Suspended in mid air  
C'mon and touch me and squeeze me  
I want you to please me

I'm ready for the time is right  
Love's ready for taking  
Love is ready  
I'm ready to fall my love is ripe  
Don't leave me here hanging  
Love is ready

The moon is full tonight and my love is overflowing  
All my feelings are showing  
And my love's been growing

Love is ready  
Love is ready  
Love is ready  
Love is ready
