

# SVRCINA, Meet Me On The Battlefield

No time for rest  
No pillow for my head  
Nowhere to run from this  
No way to forget

Around the shadows creep  
Like friends they cover me  
Just want to lay me down and finally try to get some sleep  
We carry on through the storm  
Tired soldiers in this war  
Remember what we're fighting for

Meet me on the battlefield  
Even on the darkest night  
I will be your sword and shield  
your camouflage and you will be mine  
Echoes of the shots ring out  
We may be the first to fall  
Everything could stay the same or we could change it all  
Meet me on the battlefield

We're standing face to face with our own human race  
We commit the sins again and our sons and daughters pay  
Our tainted history  
Is playing on repeat  
But we could change it if we stand up strong and take the lead  
When I was younger I was named  
A generation unafraid  
For the heirs to come

Be brave and meet me on the battlefield  
Even on the darkest night  
I will be your sword and shield your camouflage and you will be mine  
Echoes of the shots ring out  
We may be the first to fall  
Everything could stay the same or we could change it all

Meet me on the battlefield

We carry on through the storm  
Tired soldiers in this war  
Remember what we're fighting for

Meet me on the battelfield  
Even on the darkest night  
I will be your sword and shield your camouflage and you will be mine  
Echoes of the shots ring out  
We may be the first to fall  
Everything could stay the same or we could change it all  
Meet me on the battlefield
