

Sweet, Hey Mama

Hey Mama i've been looking for you
I wanna show you what my heart can do
Hey Mama if you think it's wrong
I don't now where you coming from
I wanna woman who can take every way
I need a girl who gonna shake every day
Give me a lover who can make it when ever i say
You pretty baby it's you
You baby i need a lover like you
Oh won't you love me
Come on and love me
It's so hard i don't know what to do
So get ready, ready
You gotta be ready, ready
Can't you see what's coming over you
I wanna taste of your loving cum
I hear that coke's gonna keep it up
I'll keep on going 'till i'm over the top
I never, never, never gonna stop
I wanna woman who can take every way
I need a girl who gonna shake every day
Give me a lover who can make it when ever i say
You pretty baby it's you
You pretty baby i need you
Oh won't you love me
Yeah come on and love me
It's so hard i don't know what to do
So get ready, ready
You gotta be ready, ready
Can't you see what's coming over you
You got me shaking and i can't keep still
I wanna do it 'till i get my bill
My body is sinking and i'm really the drop
I never, never, never gonna stop
I wanna woman who can take every way
I need a girl who gonna shake every day
Give me a lover who can make it when ever i say
You pretty baby it's you
You pretty baby
I wanna woman who can take it
A girl
Come on and shake on my girl
Shake, Shake, Shake
I need you to shake on me girl
Can you shake
Come on and shake, Shake
Come on and shake on my girl
