

# Sweet Noise, Burn Love

when I`m alone I think about this  
all of my friends and brothers I miss  
I miss the days and the open hearts  
oh am I asking for too much  
broken and bruised no hope in eyes  
when those you loved left far behind  
the wind blows  
the earth shakes  
high water kills  
the pyre burns  
burn, burn my love  
love is all we got  
burn bring us back to life again  
one day my world went mad  
that day my world went black  
I saw the nations dying  
men, children, women  
mothers crying  
begging for mercy  
burn my love  
dadmadamadammadamamadamam  
when I`m alone I think about this  
all of my friends and brothers I miss  
I miss the days and the open hearts  
oh am I asking for too much  
burn, burn my love  
love is all we got  
burn bring us back to life again  
when I m alone I think about you...
