

Sweet Noise feat. Zukile, Give It All Away

1.
It's been hard to com to you lately
It's been easier to stay away
And I can't feel the heat
Not the one that we would need
There is something wrong there's a wall in between

Ref:
Wait - We can't fall now
We cannot leave all we have
I know it hurts and feels bad
We should stay and just fight back
We had it once all the way
The whole story
And it will hurt but I'd be glad to take the pain

2.
I've been trying to touch you the sweet way
You've tried kissing me like the early days
But it's all very cold
And it tares me apart
Yeah it's too damn cold, but
We just can't stop now.
Wait - We can't fall now...
Pain is a side of love we choose to live with, you know
After the rainy day the sun will shine, so...
Wait - We can't fall now
We cannot leave all we have
I know it hurts

Ref:
Wait - We can't fall now
We cannot leave all we have
I know it hurts and feels bad
We should stay and just fight back
We had it once all the way
The whole story
And it will hurt but I'd be glad to take the pain
