

Swervedriver, Planes Over The Skyline

Walking through the Haight
Along a loud and crowded street
Disarray
The vender's broke again
It drives me 'round the bend
Disarray

Planes over the skyline

The east pavement opens up
And I'm left looking up
You say you just can't try anymore
To find what you've been fighting for

Planes over the skyline

Walking through the rain
To a loud and crowded place alone
Grounded to a halt
In a city built on a fault
Disarray

Planes over the skyline
