

Swervedriver, Sandblasted

How does it feel to feel?
You know it's for real
Don't say What died?
You know it's alive
I watch from reel to reel
Don't see what I feel
Split open wide
Awash in the tide

The beach seems surreal
Depends how you feel
The sea stretched for miles
I drove all the while
You ask what I feel
I still feel surreal
Taken for a ride
And bleeding inside

How does it feel to feel?
You know it's for real
Split open wide

How does it feel to feel?
You know it's for real
The sea stretched for miles
I drove all the while

Don't see what I feel
Don't see what I feel
Don't see what I feel
