

Swervedriver, The Other Jesus

You rise and fall before me I close my eyes
When all these schemes devour me I'll apologize
You send the truth straight by me I fall right in
These sins you've laid before me are seeping in
I saw the other Jesus walk down my street

Sit tight they try to teach us
The twain shall never meet
But I saw the other Jesus
Walk down my street
In dreams I've tried to twist it
But I never bleed
And something way more sinister
Is plain to see
I saw the other Jesus walk down my street

You rise and fall before me I close my eyes
When all these schemes devour me I'll apologize
You send the truth straight by me I fall right in
These sins you've laid before me are seeping in
I saw the other Jesus walk down my street
