

# Swervedriver, You've Sealed My Fate

You've sealed my fate uh huh  
You've sealed my fate  
I can't find a better way  
I can't find a better way

You've sealed my fate  
You've sealed my fate  
I need water you give wine  
I need water for this fire  
The tide is low  
The stakes much higher  
You've sealed my fate

You've sealed my fate uh huh  
You've sealed my fate  
God knows what I'm wishing for  
I laid a path right to your door

You've sealed my fate  
You've sealed my fate  
Thrown beneath a train of thought  
I just ain't earned what I've been bought  
You have crossed me I am nought

You've sealed my fate  
You've sealed my fate  
Glitterball my thoughts betray  
I can't win I sure can't fail

You've sealed my fate  
You've sealed my fate  
Follow your destruction trail  
To a sharpened bed of nails  
I can't find a better way
