

# Swift, 3 Fools

Simply when you watch me  
I can't see another soul

Strolling away  
Some things may never change  
Like the way I see you

A brilliant mind controls you

Strolling away  
Some things may never change  
Like the way I see you

And ever so often  
When my feet stop enough to let my eyes see  
i realize this is forever and we're forever

Strolling away

Strolling away  
Some things may never change  
Like the way I see you
