

Sylver, Make It

Here I am again
Still trying to understand
What you did to me
How can it be
You always disagree

Here I go again
Don't know where this will end
I've seen enough before
I want to be sure
Don't need the hurt no more

Chorus:

See I got to make it
Got to make it through
See I got to make it
Got to make it through
I know what to do
You're always untrue
I got to make it through

Here I stand again
Got the message send
Looking for some fun
Walking in the sun
No more the under fun

Here I smile again
I will no more pretend
That happiness is wrong
I know where I belong
My confidence is strong

Chorus:

See I got to make it
Got to make it through
See I got to make it
Got to make it through
I know what to do
You're always untrue
I got to make it through

I got to make it
I got to make it, through
I got to make it
I got to make it, through
I got to make it
I got to make it, through
I got to make it
I got to make it

Chorus:

See I got to make it
Got to make it through
See I got to make it
Got to make it through
I know what to do
You're always untrue
I got to make it through

See I got to make it

Got to make it through
See I got to make it
Got to make it through
I know what to do
You're always untrue
I got to make it through
