

# Symphorce, Forevermore

I don't want to spend my life, forevermore  
Don't know why you're leaving me,  
I can't ignore  
Mmh, you always understand, what is it for real  
chasing after foolish dreams,  
time stands still  
your endless will I wanted to be a part of you,  
not only for a day  
No more asking for the truth, so stay  
Never turning my dreams into sand  
on the beach of the promised land  
always believed in the right way  
When you throw away the key, like you did before  
Will you always guide my way, ... forevermore  
Blinded by the rays of light, couldn't reach for more  
Always hang on by your side, forevermore , ... forevermore  
After all the spoken words,  
after all these years  
So far away, so close to fear  
There is nothing left to give  
Nothing than a dream, more than you've ever seen  
And soon my eyes are filled with tears  
closer to you  
nothing more you can do  
will you ever feel it  
i'm coming through  
now you're all alone  
together we'll betray  
lost in the cast  
save you all the way
