

Synesthetic, Say To Me

Say to me
That there's not much
Left for me

When you feel a lot like God,
You'll never see.
Then in time you'll feel the pain
That's corroding my brain.
I need to break free
From these chains
That hold me down.

Say to me
Those words that were meant for me
Never again will I feel this pain
Because you're going away
Say to me
Those words that were meant for me
Never again will I feel this pain
Because you're going away

When in my mind I try and find
Another way to break free
Please help me breathe
Just let me see
You're never gonna be with me,
So go away (so go away)
I'm lonely now, and I cannot sleep
Please help me

Say to me
Those words that were meant for me
Never again will I feel this pain
Because you're going away
Say to me
Those words that were meant for me
Never again will I feel this pain
Because you're going away

Going away (away)
Going away (away)
Going away (away)
Going away
